

Patrice Heyberger

This wine is produced by the Plaimont co-operative in the Gascony region. Plaimont are one of France's largest and most quality conscious wine companies. The wine is vinified by Patrice Heyberger who is one of France's most respected and talented winemakers.

The wine shown here, Le Midour Blanc 2001, is made from a mixture of Ugni Blanc and Colombard grapes. Patrice Heyberger favours the more modern approach to winemaking - stainless steel fermentation, cooled by running cold water down the outside of the tank; and the wines are bottled early to retain the freshness and fruitiness of the grapes.
